

Badia Grissa

Gameplay Engineer

bediyagrissa@gmail.com |  + (216) 56 180 295 | [LinkedIn/me](#) | [GitLab](#) | [Github](#)

SUMMARY

Software Engineer with 3 years of experience as a Gameplay Engineer specializing in Unreal Engine 4 & 5 and Blueprint scripting. Skilled problem solver with strong teamwork, communication skills, and a reputation for being easy and fun to work with.

WORK EXPERIENCE

Lead Gameplay Engineer (Remote - Part time) IMU Studios (British Columbia, Canada)

Sep 2024 – Present

- Led a team of 8+ developers to contribute in the creation of an Immersive FPS Experience.
- Code review and assistance in following industry standard and design patterns principles.
- Work closely with designers and developers to iterate on high quality gameplay features.
- Expertise in rapid prototyping and problem solving, generating a fast and reliable solutions.
- Work with professional software development tools such as source control and project management.
- Participation in meetings of different disciplines to discuss feasibility of a pipeline or game feature.
- General game development programming, UI, interactions, optimization, debugging and profiling.

Keywords: Unreal Engine 5, Blueprints, Subversion, Optimization, Profiling, Debugging, Communication, Leadership.

Gameplay Engineer (Onsite) Lanterns Studios (Tunis, Tunisia)

Jan 2022 – Aug 2024

- Work closely with creative team to develop high end gameplay logic.
- Participate in daily and weekly meetings, to discuss risks, obstacles and come up with viable solutions.
- Help facilitating workflow for level designers by coming up with fast solutions to showcase product details.
- Review the work of other developers to exchange technical feedback and meet software engineering principles.
- Join small team groups working on different products to assist in rapid prototyping development.
- Integrated third-party SDKs to support different platforms and increase player target diversity.
- Used Perforce as version control system to manage project stability and code integrity.
- Assist interns in writing their documents and supervise their workflow and coding principles.

Keywords: Unreal Engine, Blueprints, C++, Visual studio, perforce, VR, Multiplayer, Optimization, Debugging, Communication.

University Instructor (Part-time) Higher Institution of Arts and Multimedia of Manouba (Manouba, Tunisia)

Sep 2022 – Jan 2023

- Introduced students to coding with C++ and using Unreal Engine.
- Tested their newly learned skills and challenged them in solving problems and thinking out of the box.
- Mentored and guided teams in making projects using what they learned and more.

Keywords: C++, Visual studio, Unreal Engine, Debugging.

End of Studies Internship

Feb 2021 – Aug 2021

Multi-Disciplinary International School (Sousse, Tunisia)

- Worked with OpenGL to develop base functionality of a rendering/physics engine.
- Aimed to better understand how game engine works behind the scenes!

Keywords: Computer graphics, C++, Visual studio, OpenGL, GLM, GIT, GitLab, CMake, Optimization, Debugging.

EDUCATION

Master of Software Engineering

Sep 2016 – Sep 2021

Multi-Disciplinary International School (Sousse, Tunisia)

Technician of Industrial & Automations in IT

Sep 2014 – Sep 2016

Professional Training Center of Sousse Section in Electronics (Sousse, Tunisia)

VOLUNTEER WORK

Organizer and photographer

Jun 2023

TCPC Tunisian Collegiate Programming Contest (Sousse, Tunisia)

Head Organizer of Global Game Jam Sousse 2k23

Feb 2023

Gaming Freaks Tunisia (Sousse, Tunisia)

Video editor (reels)

Dec 2022

ACPC Africa and Arab Collegiate Programming Championship (Sharm El sheikh, Egypt)

Organizer and photographer

Sep 2022

TCPC Tunisian Collegiate Programming Contest (Tunis, Tunisia)

Extra-Activities

- Founder of 2 University clubs
- Head in a Gaming Association (In opening phase).
